

During the spring semester of the academic year 2025–2026, students and faculty members of the Department successfully took part in the **BIP Sustainable Buildings and Infrastructures**, organized by the **Polytechnic University of Viana do Castelo (IPVC), Portugal**.

- Virtual component: February 2, 2026
- Physical mobility: February 9–13, 2026, Viana do Castelo, Portugal

Six (6) students and two (2) faculty members of the Department participated, attending lectures, technical visits, and field-based activities, gaining valuable knowledge and skills in sustainable building and infrastructure practices.

"The BIP in Portugal was the perfect opportunity to broaden my horizons in a different environment and return with my luggage full of ideas and memories!"

Elisavet Adamidou

"It was a fantastic experience that combined knowledge, learning, and entertainment. The professors and the other students were very friendly to everyone and made sure to fill us with knowledge and unique experiences in such a short period of time."

Konstantina Savvaki

"The Erasmus BIP program was a unique and valuable experience, as it combined academic enrichment and international collaboration with social and cultural interaction."

Michaela Kangasidou

"Viana do Castelo was not just a destination; it was a moment in time that I wished could last forever. Viana, you made me feel nostalgic for my present before it even became the past."

Zoina Michalopoulou

"An unforgettable experience that combined academic growth with warm hospitality, cultural exchange, and the creation of bonds with people who bridge every distance!"

Athanassia Grigoriadou
